REPORT OF AERIAL DETECTION SURVEY

AREA SURVEYED: Tiak Ranger District, Ouachita National Forest

STATE: Arkansas COUNTY: McCurtain

ACREAGE WITHIN SURVEY BOUNDARY: 155,649 DATE: February 12, 1975

AIRCRAFT: Cessna 182 SURVEY CREW: Drake and Churchill

SURVEY OBJECTIVES: To detect significant bark beetle activity.

SURVEY RESULTS: Only two single dead trees were detected.

SUMMARY: Since only single tree spots were detected, no ground checks were considered necessary. District personnel are encouraged to maintain surveillance on the Forest and report any significant insect or disease activity to the office listed below.
